

BREAKFAST IN THE CLASSROOM

Breakfast in the Classroom can be easy, clean, and low impact with items like these.

Breakfast items can be made from scratch...

...or bought prepackaged for easy preparation.

Hot meals can be delivered to each classroom in insulated bags.

When kids eat breakfast in the classroom, it becomes a social experience where no child feels left out.

Clean up is easy when each child is responsible for their own desk area. The whole process, from serving to eating to clean up, only takes about 12 minutes.
